

Gradsouthwest Limited

Environmental Policy

Gradsouthwest Limited (“Gradsouthwest”) has agreed to implement the following environmental policy:

1. We will minimise the use of natural resources and lessen our impact on the environment, by:
 - purchasing, where possible, non-polluting and energy efficient products and technologies.
 - recycling and re-using materials to improve resource efficiency, e.g. paper and electrical equipment.
 - operating cloud-based ICT, and moving to e-commerce rather than paper-based systems.
 - utilising public transport if available.
2. We plan to meet or exceed all applicable regulations to the environment, and where appropriate will set our own standards and targets if there are no relevant Government regulations.
3. We will assist suppliers and customers to promote greener products and services.
4. We will support education and training of staff members in environmental issues to support this policy.
5. We will regularly reviewing our green performance, and have a long term commitment to sustainability.

Policy agreed: July 2015
